

Emma Ebeling
Digital Media and Product User Experience Designer

Alma, MI 48801 • ebelingemma@live.com • +1(989)-331-4265 • <https://egeportfolio.netlify.app/>

Education

Michigan State University, GPA 3.6 | May 2026

B.A. in *Games and Interactive Media* (specialized Game Design with experience in Development)

B.A. in *Information Science* (dual specialization in Media and Information plus Human Centered Technologies)

Minor in *Korean Language and Culture*

Recent Employment

Michigan State University: Resident Assistant, August 2023 – May 2026

Michigan State University: Starbucks, February 2024 – May 2026

Michigan State University: Receptionist, June 2025 – September 2025

Professional Experience

VIP – Team Lead

Worked with clients to bridge physical products to digital applications; Nic-Nix, Henry Ford.

Utilized figma to create low-to-high fidelity prototypes.

Attended weekly meetings to understand client visions and desires; implemented feedback and ideas for the next-week's input.

Created and delegated manageable tasks to team members and kept track of progress and input through Basecamp.

Apple Design Lab

Created low-to-high fidelity prototypes and finished applications using Figma and Swift in XCode.

Met with various clients to understand needs, brainstormed as a team to address all ways to address their concerns, broke up into smaller teams to address issues and build related apps based on problem-approach.

Brainstormed and designed independent apps based on personal ventures and student problems.

Research

User Experience

Tested and researched usability of products, applications, websites and games to improve user experience design.

Utilized survey, interview, usability testing, competitive analysis and existing research to gather and analyze data.

Identified problem points and solutions; presented utilizing excel, powerpoints, and documentation.

Wrote documentation for design improvement, research processes and analysis, and user experience.

Product Design

Conducted competitive analysis to understand existing strengths and weaknesses in the market.

Tested low, mid, and high fidelity prototypes; utilized user research to understand physical and digital product experiences.

Target audience and demographic research to understand needs and wants.

Related Course Work

Documentation

Game story writing, game design documentation (game bible/GDD); incident report writing; pitch documents

Adobe Media Design

Newspapers, newsletters; infographics and posters; invitations; web mockups; menus; book covers;

Iterative Prototyping

Low fidelity- paper, sketching, simple-shape wireframes; medium- video, cardboard, visualized wireframes; high- completed wireframes, 3D prints and laser woodcutting; Final- product design pitches, apps, websites.

Worked with students in Kenya and MSU to understand culture and needs; prototyped iterations of solutions to problems they faced with understanding of their cultural and economical limitations.

Wireframing

App and website flows; story and narrative diagramming; experience and functionality mockups and creation.

Skills

Interpersonal: Timely Written and Verbal Communication | Project Management | Team and Task Organization | Conflict Management | Event Planning and Management | Professional and Research Presentation |

Technology: Intermediate Documentation | Intermediate Adobe Photoshop, Illustrator, InDesign | Intermediate Photo & Video Editing | Beginner Unity | Beginner Python, Beginner C#, Intermediate HTML/CSS, Beginner JavaScript, Beginner Swift | Advanced Canva | Quick and Accurate Typing | Intermediate Figma, Adobe XD | Windows, MAC | Beginner Digital Art | Wireframing and Diagramming | Sketching

Language: Conversational Korean, Beginner Spanish, Elementary German
